By offering one central space for key facts and figures, good practices and our own content on this heinous phenomenon, we aim to trigger better actions and decision-making by all those involved and concerned, at all levels

- educates, raises awareness and informs about femicide from a transnational perspective
- transfers knowledge across regions, borders, levels, disciplines; adds context and meaning
- helps identify gaps, blind spots and potentials for concerted action and research
- increases visibility of key actors' multifaceted work
